Experience	
King's Catering 2024-2025	• Worked in teams of 3-20 across multiple locations to deliver large scale events ranging from 10-1,200 attendees • Ensured smooth execution of event logistics and service in fast-paced, time-constrained university environment
One-to-one Tutoring 2024	• Prepared structured revision notes tailored to the needs of each student • Analysed mark schemes to coach students towards concise and precise responses • Practiced time management under exam conditions with students
Rimini Meeting 2023	• Coordinated with remote studio in Italian to conduct audio and video tests for speaking events hosting 800,000 attendees • Supported technical setup and administration for large, televised international conference
The Mill Community Centre 2023-2024	• Responsible for general administration, taking calls and payments, cleaning, customer service, as well as opening and closing of premises
Education	
2026	Built a Support Vector Regression (SVR) model in Python (scikit-learn) to predict corrosion inhibition efficiency of lubricant additives using molecular fingerprints and descriptors as part of my final year group project
2024-2025	The University of Hong Kong – 1 Year Exchange Programme: • Studied computational physics methods including Runge-Kutta; computed Rényi and Von Neumann entanglement entropy of 1D Heisenberg spin chain using exact diagonalisation and reduced density matrix (PyTorch) • Provided academic English writing support to Chinese students – focusing on sentence structure and word choice
2022 – 2026	King's College London – BSc Physics and Philosophy with a Year Abroad, expected 2:1-1st
2015 – 2022	The London Oratory School – A-levels: A in Mathematics, A in Physics, A* in Italian
Extracurricular	
2026	Contributed Mandarin submission to King's College London <i>Sustainability Across Cultures & Disciplines</i> Exhibition
2025-2026	Trained Muay Thai and produced online promotional material for Muay Thai classes
2022	Volunteered with Order of Malta's Pilgrimage to Lourdes to support disabled adults Attended University of Padova's short astrophysics course 'Asyago'
2018-2021	Trained at 1863 Rowing Club and won 2021 Hammersmith Head competition as a coxless four
Languages	English, Italian – fluent Spanish – intermediate Mandarin – HSK 3 268/300, HSKK Intermediate 47/100 (sat in January 2026) Experience with MATLAB, LaTeX, HTML
